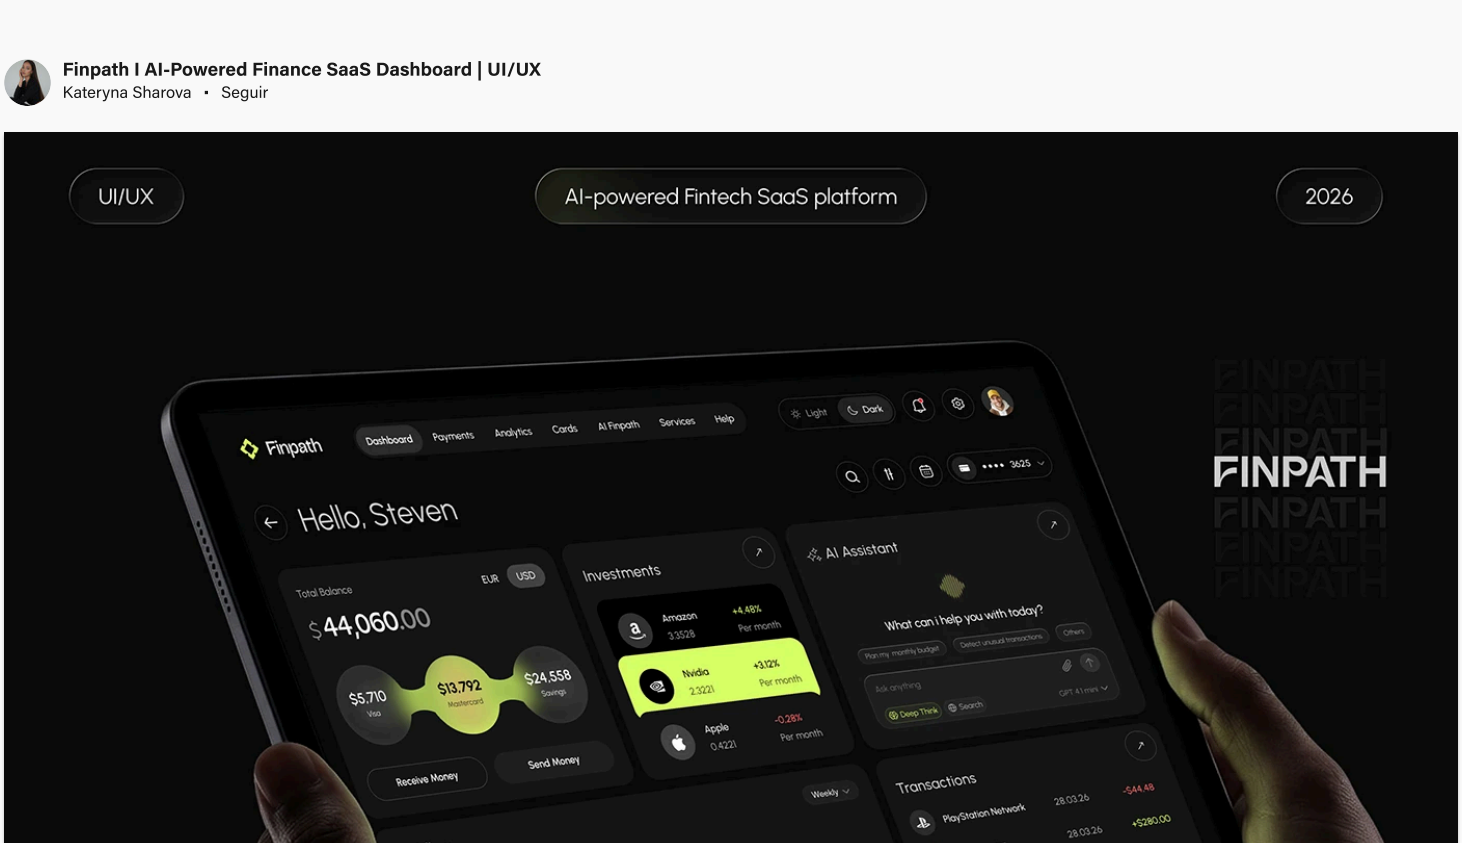
AI-powered Fintech SaaS platform

2026



About

FINPATH is an AI-powered financial ecosystem that brings together spending intelligence, card management, and real-time analytics into a single, refined experience. Designed to simplify complexity, it empowers users to monitor transactions, optimize spending, and make confident financial decisions effortlessly.

SaaS Platform · AI Assistant · Finance · PFM · ¥ € $

With an intelligent assistant at its core, the platform delivers personalized insights, highlights unusual activity, and helps users stay in control of their finances — proactively, not reactively.

Problem & Solution

From Passive Tracking to Active Financial Control

Problem 1

Lack of financial clarity

Users don't clearly understand where their money goes because financial data is fragmented across balances, transactions, and analytics. As a result, they struggle to see spending patterns, prioritize expenses, and feel a lack of control over their finances.

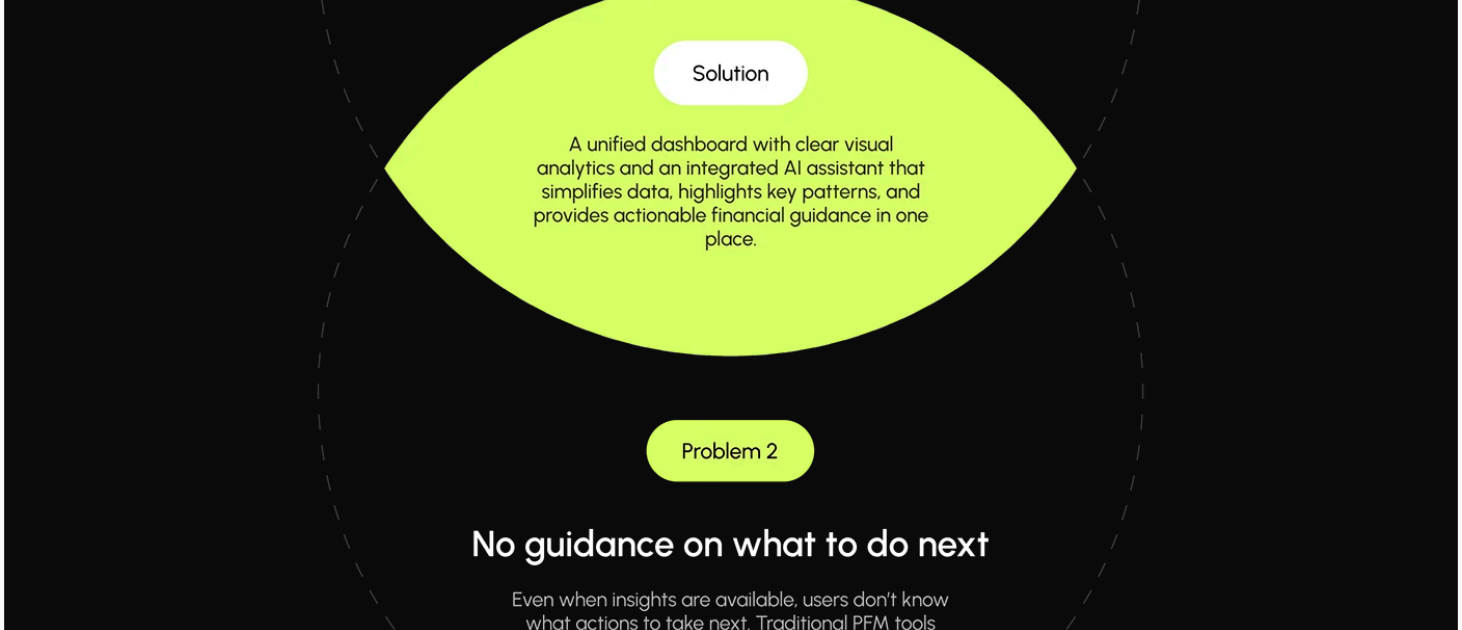
Solution

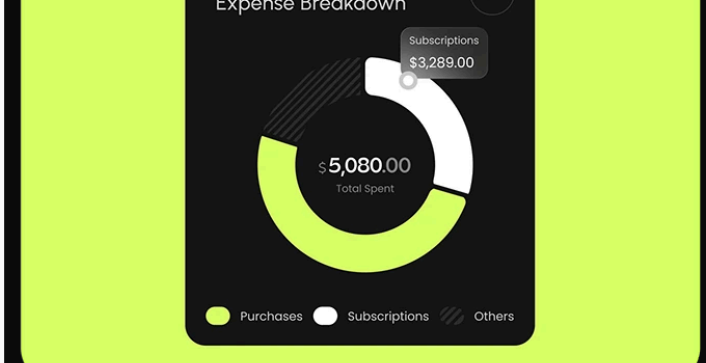
A unified dashboard with clear visual analytics and an integrated AI assistant that simplifies data, highlights key patterns, and provides actionable financial guidance in one place.

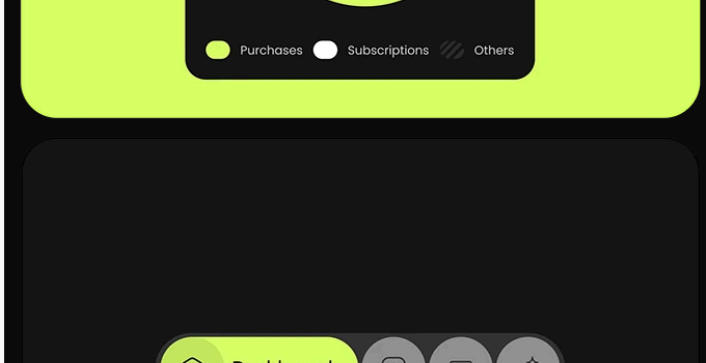
Problem 2

No guidance on what to do next

Even when insights are available, users don't know what actions to take next. Traditional PFM tools require manual interpretation, which creates friction and prevents users from making confident financial decisions.

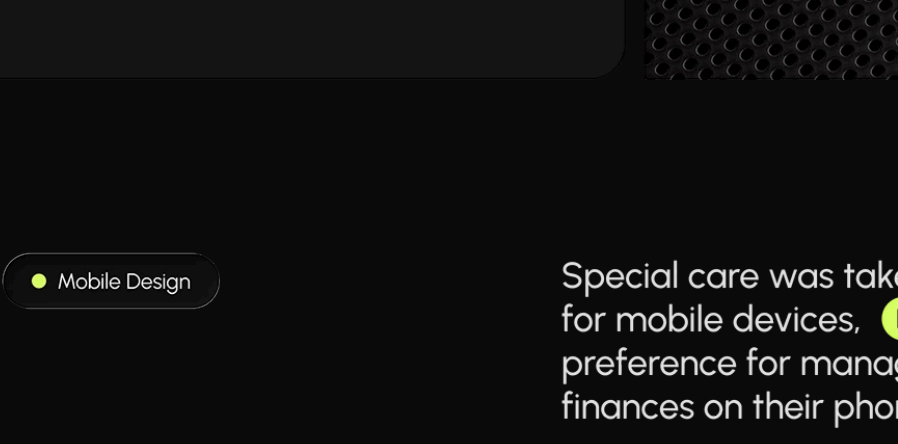


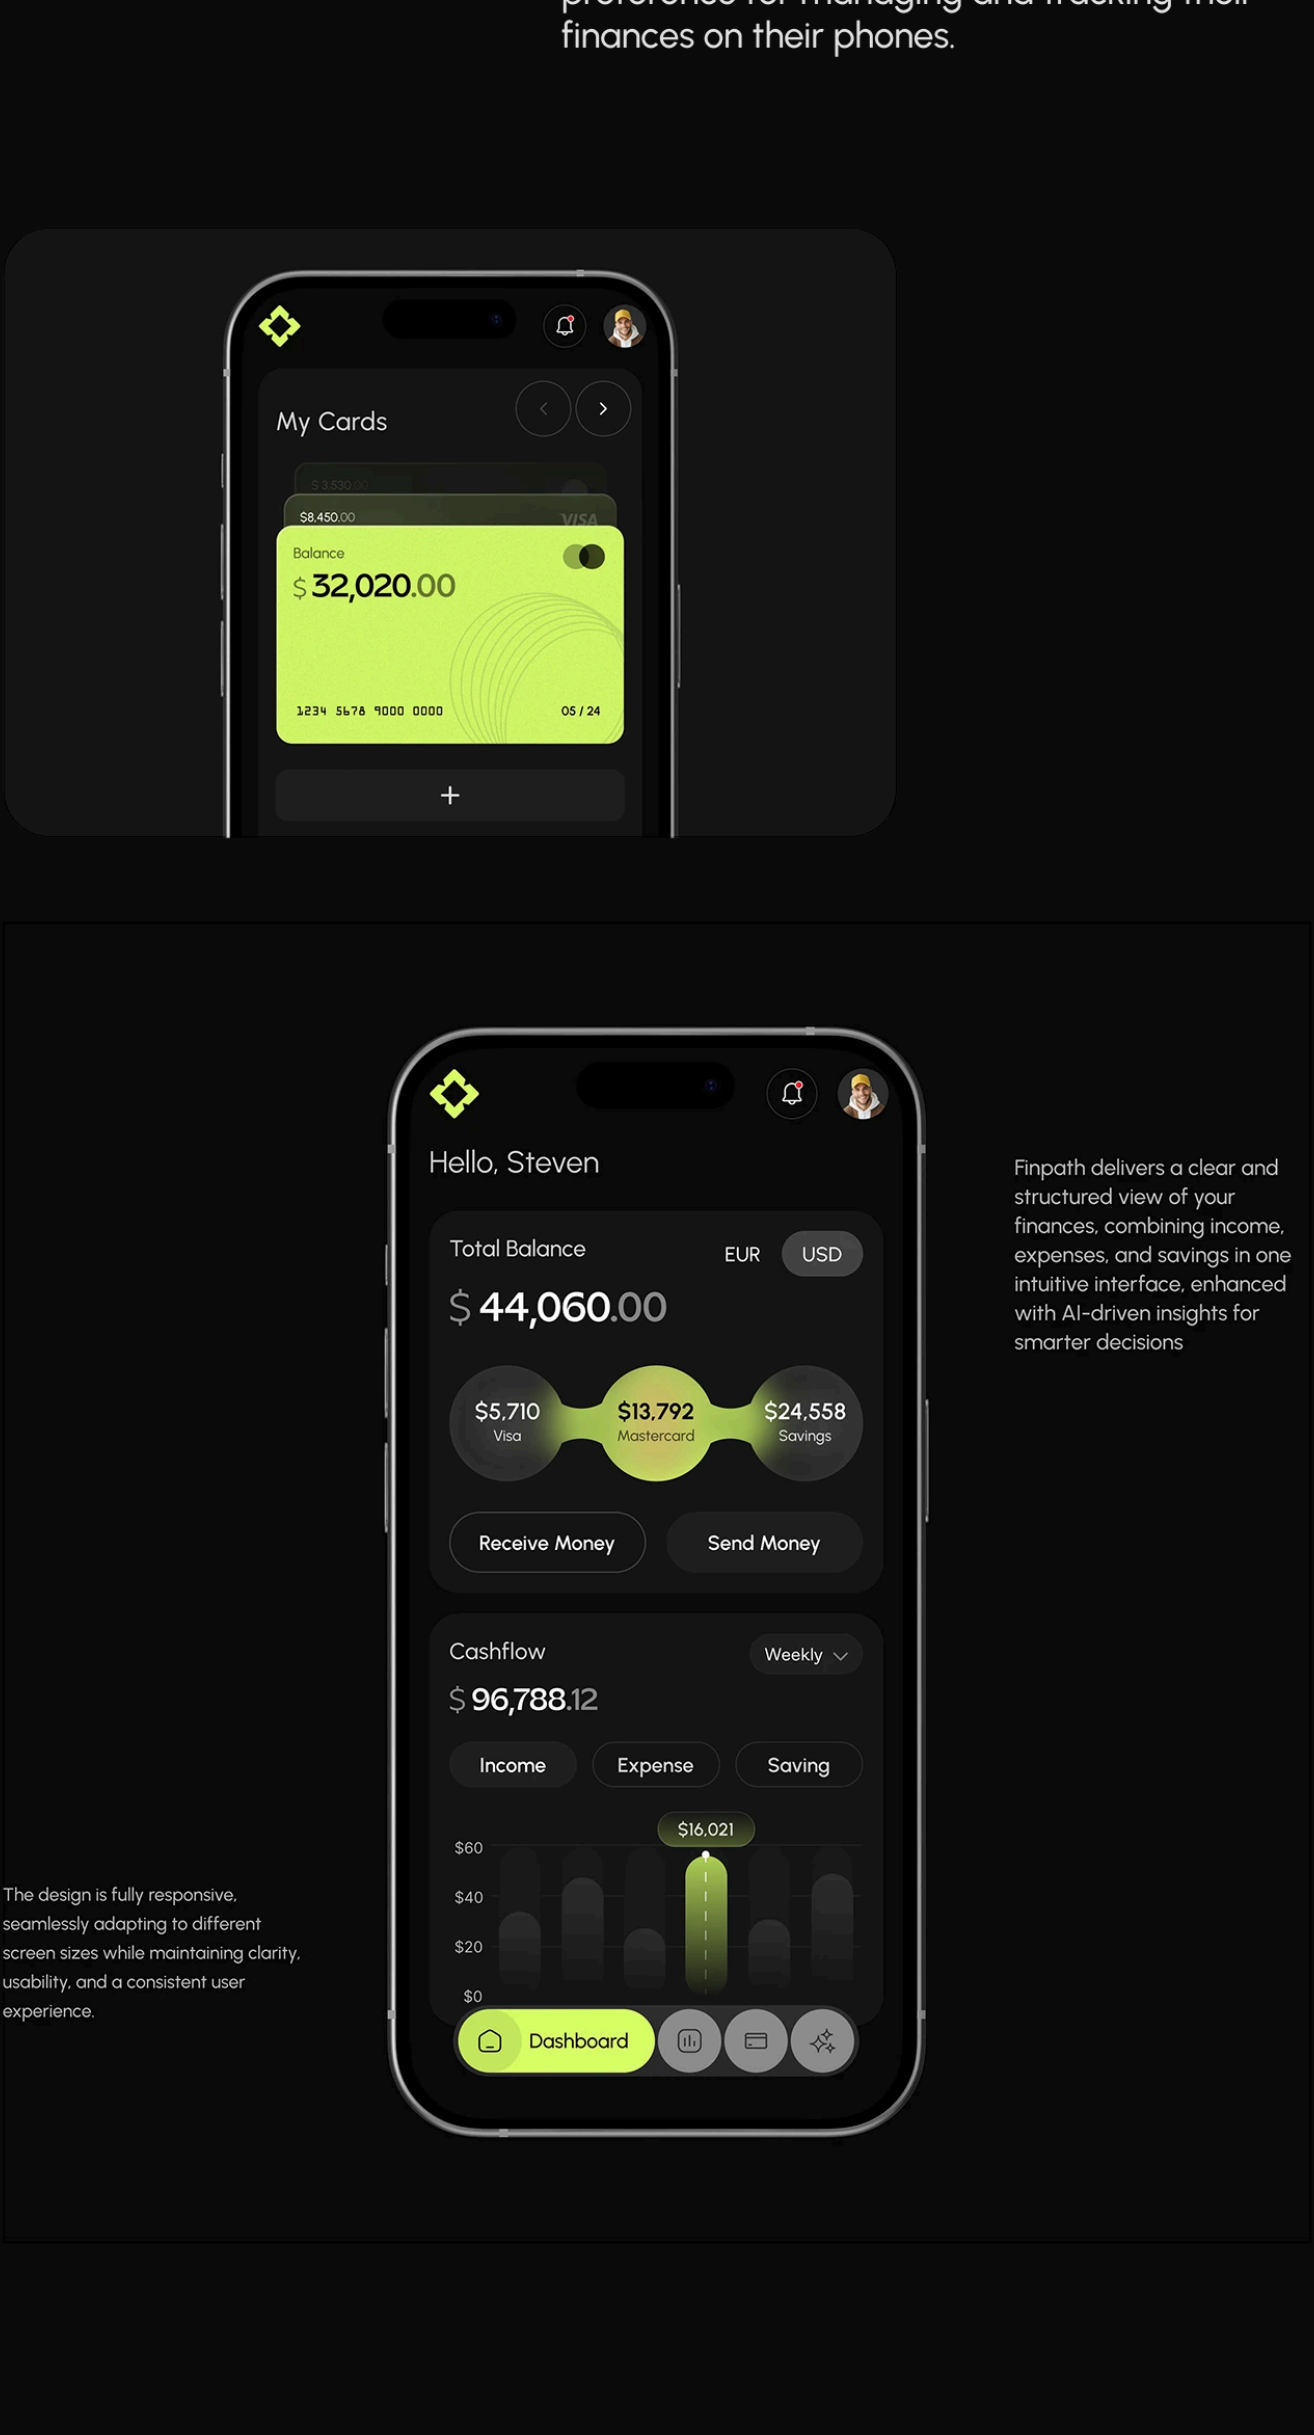




Mobile Design

Special care was taken to adapt the application for mobile devices, considering users' preference for managing and tracking their finances on their phones.



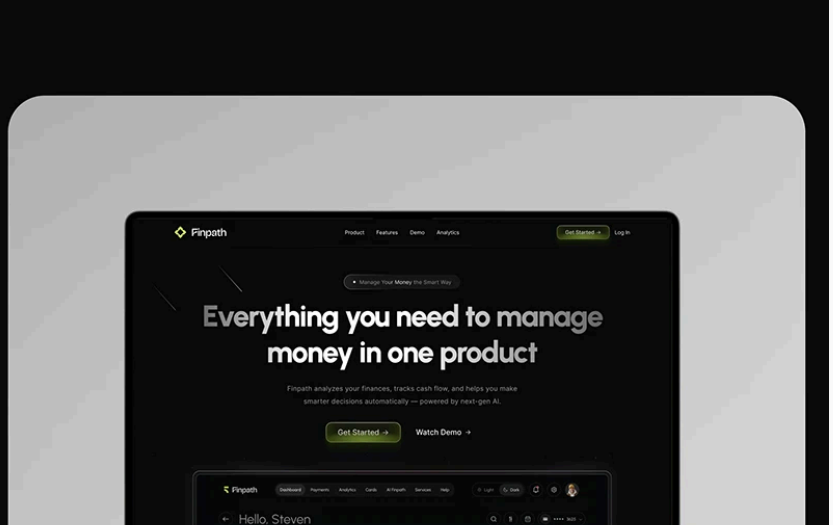


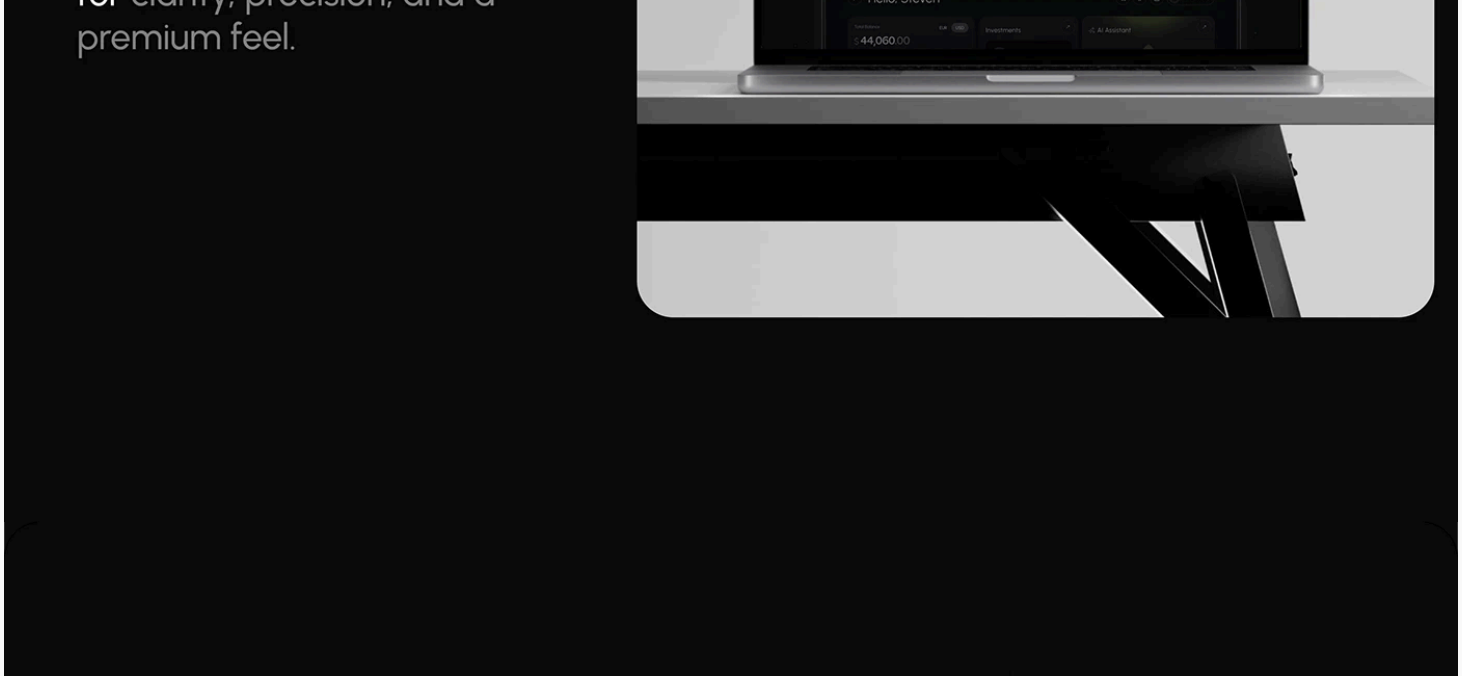
Finpath delivers a clear and structured view of your finances, combining income, expenses, and savings in one intuitive interface, enhanced with AI-driven insights for smarter decisions

The design is fully responsive, seamlessly adapting to different screen sizes while maintaining clarity, usability, and a consistent user experience.

Landing Page

Every element — from onboarding to the core product experience is crafted for clarity, precision, and a premium feel.

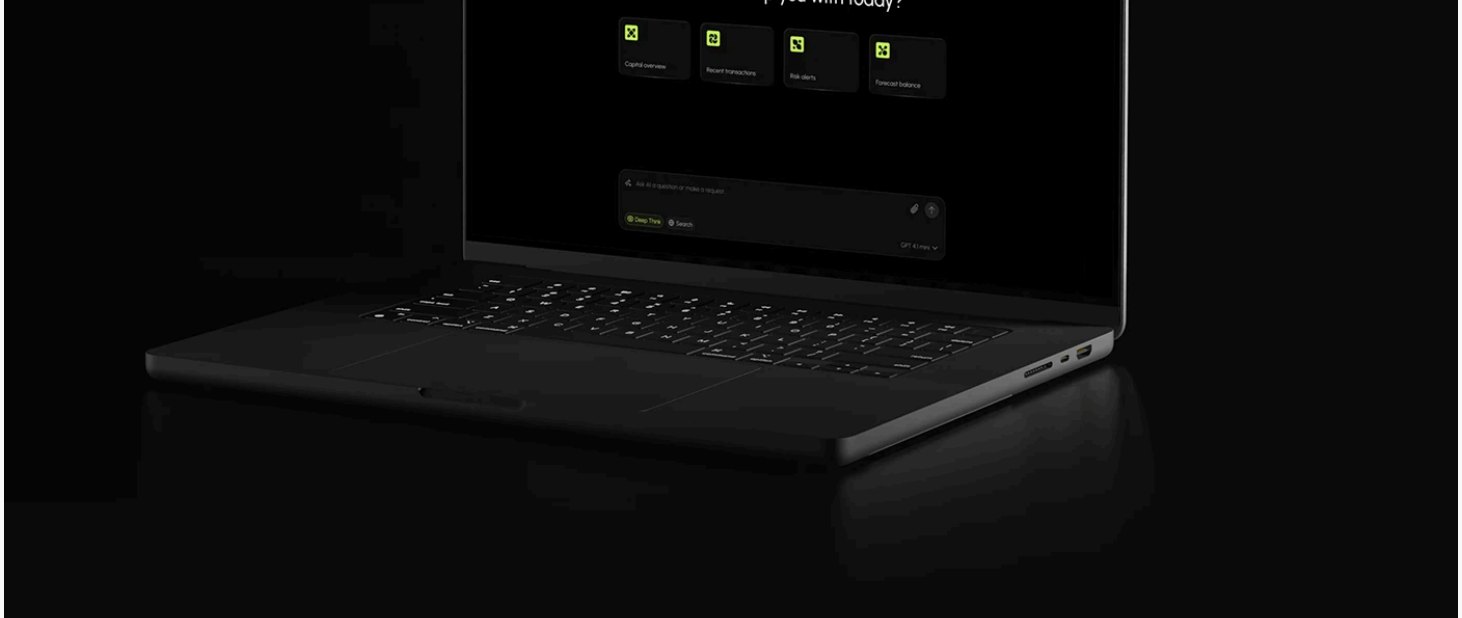


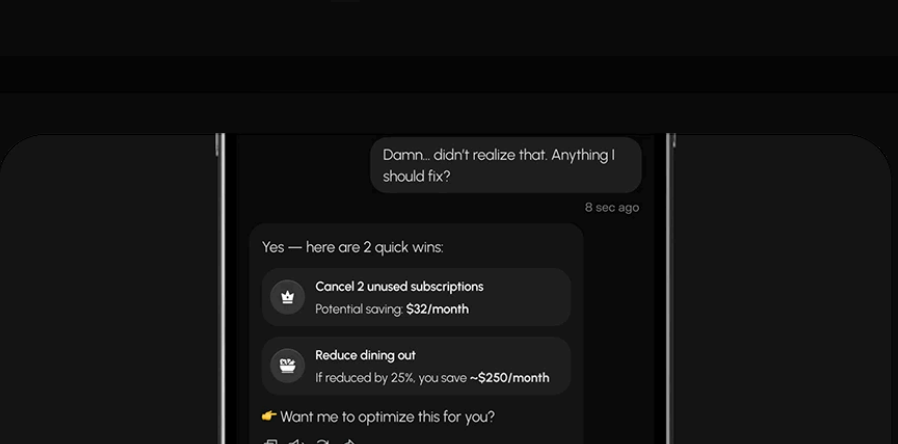


An all-in-one suite to manage your money with ease

AI Assisntant

Fynpath AI Assistant helps user manage finances by delivering insights, detecting unusual transactions, forecasting balances and suggesting personalized saving opportunities





Damn.. didn't realize that. Anything I should fix?

Yes — here are 2 quick wins:

Cancel 2 unused subscriptions
Potential saving: $32/month

Reduce dining out
If reduced by 25% you save ~$250/month

Want me to optimize this for you?

Plan my monthly budget · Detect unusual transactions

yes sure

User Flow

Optimizing user experience through vizualization of user flows

Love how one lime-green holding pops the whole investment panel into focus for me.

Vijay Bhuva • 21 de set. de 2026 • Responder
This is 🔥

Danil Hulakov • 19 de set. de 2026 • Responder
The color work is just wow

Very good!

Ulyana V. • 15 de set. de 2026 • Responder
Nice 👌

Tusher Sardar 🔥 • 7 de set. de 2026 • Responder
Super polished interface!

Shasanko Das ★ • 3 de set. de 2026 • Responder
Impressive work 🔥

Zara Aslanii • 27 de ago. de 2026 • Responder
Really appreciate how the visual hierarchy supports the UX here.

Ébrahim • 25 de ago. de 2026 • Responder
Amazing 😍

Vlad Zeltyn • 25 de ago. de 2026 • Responder
Nice design
